Hi Shantanu

As per your Kendri Love Marriage is possible just because of your planet but still Ketu position is not good in your horoscope. It create lot of difficulties. Direction is West from your Native place and Age is equal to you or more than you that Big gap from you.

She would be a working woman.

In your horoscope position of Saturn is good but due to present of Marglek dash and Dwand dash marriage life may be unstable my advice please take care while you proceed for Love Marriage. Do proper Kendri hulan.

Jai Mata di || God bless
